

VISIT - SAFE

The Crown & Anchor's top priority is the health and wellbeing of all of our employees, customers, the village and all third parties.

In preparation for re-launch we have been working hard with our partners Environmental Health Partners Common Sense Compliance Ltd, to ensure we make your next visit safe and as comfortable as possible.

There will be some changes to ensure the safety of guests and the team but please expect the same warm welcome, the same beautiful dining room and some wonderful new menus to explore.

We are lucky to have a sizeable bar for drinks only, large dining room and a new 'Al Fresco marquee' for outside dining on the terrace, along with drinker's tables on the front & rear terraces and back garden. There will be ample distance between tables and diners who will be allocated table on arrival.

Table service only and we encourage customers to pre-order food when possible.
A track & trace system is in operation for lead guests to log on arrival.

Please feel free to contact us at info@crownandanchorham.co.uk / 01488 503040 if we can be of any assistance or share the Covid-19 operational procedures.

May we also take this opportunity to thank you for your continued support over recent months. We cannot wait to welcome you back!
